CONTENTS

Volume 13

Number 1, March, 1967

M. FUJIWARA, V. BYHOVSKY, H. NAKAMURA, G. TAMURA and K. ARIMA: Accumulation of purine and pyrimidine derivatives by microorganisms. IV. Isolation and characterization of a mutant devoid of 5′-nucleotide-degrading ability derived from an adenine auxotroph of *Bacillus subtilis* 209-4 1

T. SAI and M. AMAHA: Studies on (−)-citramalic acid formation by respiration-deficient yeast mutants. II. Citramalic acid formation and a variety of respiration-deficient strains of brewer's, baker's sake, and wine yeasts..... 15

F. YOSHINAGA, Y. YOSHIHARA, S. OKUMURA and N. KATSUYA: Studies on the fermentative production of L-proline. II. Conditions for L-proline production by *Brevibacterium flavum* 2247 No. 14-5..... 25

H. MOMOSE: Genetic and biochemical studies on 5′-nucleotide fermentation. III. Genetic derepression of enzyme formation in purine nucleotide biosynthesis in *Bacillus subtilis* 39

G. S. VENKATARAMAN and S. NEELAKANTAN: Effect of the cellular constituents of the nitrogen-fixing blue-green alga, *Cylindrospermum muscicola*, on the root growth of rice plants 53

T. YAMAGUCHI: Similarity in DNA of various morphologically distinct *Actinomycetes* 63

S. AIBA, S. NAGAI, Y. NISHIZAWA and M. ONODERA: Energetic and nucleic analyses of a chemostatic culture of *Azotobacter vinelandii*..... 73

S. AIBA, S. NAGAI, Y. NISHIZAWA and M. ONODERA: Nucleic approach to some response of chemostatic culture of *Azotobacter vinelandii* 85

A. NISHI, S. OKAMURA and T. YANAGITA: Shift of cell-age distribution pattern in the later phases of *Escherichia coli* culture 103

Short Communication

T. HIYAMA, Y. KOGA and S. FUKUI: A method for the determination of D-lactic acid 121

Number 2, June, 1967

H. IIZUKA, I. TANABE, T. FUKUMURA and K. KATO: Taxonomic study on the ε-caprolactam-utilizing bacteria..... 125

O. NAKAYAMA and M. YANOSHI: Spore-bearing lactic acid bacteria isolated from rhizosphere. I. Taxonomic studies on *Bacillus laevolacticus* nov. sp. and *Bacillus racemilacticus* nov. sp 139

O. NAKAYAMA and M. YANOSHI: Spore-bearing lactic acid bacteria isolated from rhizosphere. II. Taxonomic studies on the catalase-negative strains 155

I. BANNO: Studies on the sexuality of *Rhodotorula*..... 167

K. KITAHARA and C.-L. LAI: On the spore formation of *Sporolactobacillus inulinus* 197

BOUND BY THE NATIONAL LIBRARY BINDERY CO. OF GA.

THE UNIVERSITY LIBRARIES OF GEORGIA

Y.-T. LIU, H. TAKAHASHI and B. MARUO: Synergistic killing effect of glycine and penicillin, and rapid methods for mutant isolation in *Pseudomonas* 205
R. ISHII, S. ÔTSUKA and I. SHIIO: Microbial production of amino acids from hydrocarbons. II. Isolation of good hydrocarbon utilizers and amino acid production by their auxotrophs..... 217
T. YANAGITA and Y. NOMACHI: Kinetic analysis of the region of protease formation in the hypha of *Aspergillus niger*..... 227

Number 3, September, 1967

S.-T. CHUNG, K. AIDA and T. UEMURA: Studies on ATP deaminase. II. Relationship between enzyme specificity and substrate structure..... 237
Y. IKEDA, T. IIJIMA and K. TAJIMA: Elimination of F-episome from a male strain of *Escherichia coli* by treatment with sarkomycin and a related antibiotic.. 247
A. IMADA, M. KUNO and S. IGARASI: Degradation of pyrimidine nucleotides by enzyme systems of *Streptomyces*. I. Ribose-5-phosphate formation from pyrimidine nucleotides..... 255
A. IMADA: Degradation of pyrimidine nucleotides by enzyme systems of *Streptomyces*. II. Pyrimidine 5'-nucleotide phosphoribo (deoxyribo) hydrolase of *Streptomyces virginiae*..... 267
S. ABE, K. TAKAYAMA and S. KINOSHITA: Taxonomical studies on glutamic acid-producing bacteria..... 279
R. UCHIO, S. ÔTSUKA and I. SHIIO: Microbial production of amino acids from hydrocarbons. III. L-Ornithine production by an arginine auxotrophic mutant of *Corynebacterium hydrocarboclastus* 303
H. KURAISHI, T. MIKAMI, K. TASHIRO and T. UEMURA: Bioscanner—a device recording automatically the courses of microbial growth through scanning procedure with twenty-one channels 313

Number 4, December, 1967

H. MURAKAMI, S. TAKASE and T. ISHII: Non-productivity of aflatoxin by Japanese industrial strains of *Aspergillus*. I. Production of fluorescent substances in agar slant and shaking cultures 323
S.-T. CHUNG, K. AIDA and T. UEMURA: Studies on ATP deaminase. IV. Distribution of ATP deaminase, and the purification and properties of acid-type ADP-deaminating enzyme 335
K. SANO and I. SHIIO: Microbial production of L-lysine. I. Production by auxotrophs of *Brevibacterium flavum* 349
L. P. ELLIOTT and R. J. CASHWELL: Radioisotope method for detecting tellurite uptake by staphylococcal cells 359
A. YAMANOI, S. KONISHI and T. SHIRO: Studies on inosine fermentation—production of inosine by mutants of *Bacillus subtilis*. V. Specific requirement of adenine for regulation of inosine formation and adenine-sparing action of AICA and amino acid mixture..... 365
D. GINDRAT et G. TURIAN: Ascogone et anomalie d'enroulement hyphal chez *Gaeumannomyces graminis* (Sacc.) von Arx et Olivier et *Neurospora crassa* Shear et Dodge 381

S. HIGASHI: Transfer of clover infectivity of *Rhizobium trifolii* to *Rhizobium phaseoli* as mediated by an episomic factor 391

Short Communications

T. KAWATA: Presence of cytochromes in the Reiter treponeme 405
K. G. MUKERJI: *Aspergillus niger* growing in coconut oil 407

B.69
